EDUCATION

Western University

London, ON

B.Sc. in Computer Science, with Ivey Advanced Entry Opportunity (AEO)

May 2029

PROJECTS

Personal Portfolio Website

2025

React, JavaScript, HTML, CSS

- Developed a responsive personal website showcasing projects, achievements, and contact features using React and custom CSS animations.
- Optimized site accessibility and load performance for both mobile and desktop users, improving engagement metrics.

Vibefy

2025

JavaScript, HTML, CSS, Spotify API, React + Vite

- Built an AI-powered photo-to-music recommender that analyzes image color palettes to generate Spotify song suggestions.
- Implemented full-stack Spotify integration (PKCE OAuth, playlist creation, API automation) using React and Node.js.

AI study Assistant

2025

Python, JavaScript, React, Node.js, OpenAI API, Vector Databases (FAISS / Pinecone)

- Built an AI-powered study tool that extracts text from PDFs and delivers accurate, citation-linked answers using embeddings, vector search, and RAG.
- Implemented a full-stack pipeline for document ingestion, chunking, semantic search, and LLM-based answer generation with a responsive React interface.

EXPERIENCE

Director of Projects

Oct 2025 – Present

Western Founders Network

London, ON

- Led teams in organizing and mentoring student-led full-stack projects and hackathon initiatives, fostering collaboration and innovation.
- Hosted technical workshops teaching React, APIs, ML structure, and Git version control, enhancing participants' technical skills and knowledge.
- Developed and maintained data pipelines using Python and SQL to support data-driven decision-making, improving data processing efficiency.

Director of Operations

Sept 2023 – Present

Gen Connect

Toronto, ON

- Led technical coordination for community events, integrating digital tools to streamline planning and outreach, enhancing event efficiency.
- Managed grant budgets exceeding \$5K, supporting senior outreach through 20+ tech-enabled events, improving community engagement.

President, Student Council

Apr 2023 – June 2025

St. Theresa of Lisieux High School

Richmond Hill, ON

- Led a 20-member council to plan and execute school-wide initiatives improving student engagement.
- Gathered 78,000+ views, and ran over 10 successful events
- Actively worked with admin and other staff

Technological Coordinator

Mar 2022 – Aug 2025

Canadian Marthoma Church

Whitchurch-Stouffville, ON

- Configured and maintained livestream systems using OBS and Python automation scripts, reducing setup time by 60%.
- Collaborated with a 12-member media team to ensure consistent streaming and social media delivery.

Student Tutor

Apr 2023 – Present

Zen Math

Toronto, ON

- Tutored 10+ students in mathematics and physics, fostering conceptual understanding through hands-on sessions, resulting in improved academic performance.
- Created YouTube educational content explaining problem-solving processes for STEM topics.

President, Photography Club

Sept 2023 – June 2025

St. Theresa of Lisieux High School

Richmond Hill, ON

- Organized photography workshops and directed event coverage for school and community functions.
